Cupid

Cupid Minimally Invasive Spine System

Cupid

Cupid Minimally Invasive Spine System

• Optimized Implants • Intuitive Instrumentation • Convenient Operation

Double Thread & Dual Core Thread Design

Two Types of Angulation

- Multiaxial Pedicle screw and Uni-plane pedicle screw

Integrated Long Arm Design

- More stable and convenient than the external extended sleeve

Break-off Tail Tabs

- Protect the long arms from deformation during screw insertion

Cupid MIS Spine System, as a new generation of Kanghui posterior fixation system, features the minimally invasive treatment and embodies the design concept of Simple is Perfect. It has the characteristics of optimized implants, intuitive instrumentation and convenient operation.
